

29th May 2020

WELCOME BACK! (Did you hear me shouting from my roof top?)

I'm sure you have heard that dental practices have finally got the go ahead to start providing face-to-face patient care *from June 8th*. We are looking forward to welcoming you back - little by little!

Please be aware that your trip to the dentist will not look like it did before the Covid outbreak, and there is still a long way to go before we are back as before, if that ever happens again? In the meantime, please be patient with us! This is a new situation for us and appointments need to be planned carefully.

We are currently preparing the surgery, including gathering all necessary PPE, to make it as safe as possible for all of us, patients and staff alike.

We will begin by seeing all the emergencies that have accumulated over the last 10 weeks. We will be unable to perform all procedures *from the 8th of June* and appointment slots will need to be much longer than what we have been used to.

Our telephone will not be manned as usual. If the phone is not picked up please leave a message either on the phone 0207 637 1339 or send an email to: [gunilla@assmundson.com](mailto:gunilla@assmundson.com). We will get back to you within 24 hours.

We look forward to seeing you soon and serving you with the high quality safe dental care that you are used to.

Gunilla and Toni
